

# MOVINCOOL®

*The #1 Spot Cooling Solution*

## MovinCool Specification & Accessory Catalog

Another line of quality products by DENSO.

**DENSO**

# The All-New Climate Pro Series Advances Spot-cooling Technology.

The best just got better with three all-new product series:

**Climate Pro K** – for offices and computer rooms

**Climate Pro X** – for industrial and warehouse applications

**Climate Pro D** – dual capabilities for heating and cooling

## Improved performance with these new features:

- Color LCD control panel. Simplifies operation, clearing of codes and easier to read.
- Matte black cabinet brings stylish utility to the workplace.
- Added bumpers enable safer handling and movement around your facility.
- Larger casters makes rolling and navigation easier.
- Built-in cable compartment. Keeps power cord securely out of the way.

## Other design advances:

- Quick-connect nozzle. Turn-and-click convenience for efficient direction of air-flow (select Climate Pro X series models).
- Hinged tank cover. Keeps drain tank secure.
- Ergonomic drain tank design. Makes for easier handling and emptying.
- Built-in flanges. Standard on all models — no add-ons needed.

## Connectivity ready\* with remote monitoring features:

- 24/7 monitoring for “no surprises.”
- Receive system notifications.
- Get on-demand location updates for asset tracking.

\*Subscription required, coming in 2022.

## Climate Pro K Series

Made especially for commercial/office spaces where comfort is essential to productivity.

## Climate Pro X Series

Spot cooling for commercial/office applications — perfect for cooling people and production processes.

## Climate Pro D Series

Our heat pumps are your answer for cooling and heating for year-round comfort.

## Industry-Leading Quality and Innovation Since 1982

MovinCool is your number one source for portable cooling systems. You'll find the industry's finest and most extensive line of products, known for innovation, reliability, and overall value. MovinCool pioneered the portable cooling industry in 1982. We continue to lead by providing the most advanced products on the market. For offices, factories, warehouses and any commercial space — MovinCool brings proven performance for trouble-free spot cooling.

### The "Performance Difference"

**Innovation.** Our advances in portable cooling technology include the first programmable systems and the first ceiling-mount units for space-limited installations. Now MovinCool brings you the first and only connectivity-ready portable cooling systems.

**Reliability.** DENSO design standards ensure that MovinCool systems live up to your expectations for durable reliability. Every model undergoes rigorous tests in the design phase including three-axis vibration, thermal shock under extreme temperature cycling, and exposure to eight different kinds of dust particulates.

**Value.** MovinCool products provide the best total cost of ownership, typical life cycles exceeding 10 years, and manufacturing quality approximating "zero defects."

Our commitments to quality, innovation and service combine to give you the best return on investment — the reason MovinCool is known worldwide as "the #1 portable spot cooling solution."

As a brand of DENSO Corporation, MovinCool is aligned with the world's largest manufacturer of air conditioning systems and the primary supplier to the automotive industry.

DENSO is headquartered in Japan and has more than 200 subsidiaries and affiliates worldwide. It employs over 170,000 people in the manufacture and distribution of advanced automotive systems and components, robotics, telecommunications products, and information-processing devices.

Nick Orr

LITTLE COMPANY OF MARY HOSPITAL

*"When the laboratory was first built, the air conditioning was more than adequate. However, over the years a lot of new electronic equipment that produces a lot of heat has been added. We brought in two MovinCool portable air conditioner systems, plugged them in, ran the ductwork to the ceiling. Within minutes we had cool air and everything was running smoothly and efficiently."*

Michael Franks

SWEETHEART CUP COMPANY, INC.

*"We used MovinCool out on our production lines for our thermal forming areas where it's very hot. We put a MovinCool spot cooler right on the packing areas and distributed them onto people. It cooled down the area so we didn't have to be moving out every other time and shifting people to cool down."*

## Leading the industry we created.

MovinCool pioneered the portable cooling industry in 1982. We continue to lead by providing you with the most advanced products on the market. For offices, schools, factories, warehouses and any commercial space — MovinCool brings proven performance for trouble-free spot cooling.

### Computer and Server Room

*Protect valuable electronics with MovinCool reliability.*

#### **Dependable spot cooling.**

The MovinCool Climate Pro series provides dependable spot cooling for your high-value electronics — computers, servers, and telecom equipment while preventing equipment failures and communication outages. It can be used for your emergency backup, supplement, or permanent cooling.

### Offices and Schools

*Think cool. Think MovinCool.*

#### **Keeping people cool and productive.**

MovinCool is instant relief from excessive heat in offices and schools to keep people thinking clearly and working productively. It helps keep computers from overheating, provides cooling just where it's needed and emergency cooling when central systems fail.

## Healthcare Facilities

*Spot cooling solutions that serve you well.*

### **Keeping your facilities running smoothly.**

MovinCool controls temperatures around heat-generating medical equipment to keep your healthcare facility running smoothly when main HVAC systems are down. Use it for temporary cooling in emergency rooms, waiting areas and energy-intensive areas, such as labs, imaging centers, and computer rooms.

## Industry and Manufacturing

*When heat is rough on production, MovinCool smooths things out.*

### **Production that runs smoothly.**

MovinCool portable spot air conditioners can be used without the huge expense of air conditioning an entire facility and prevent product defects (warping and condensation) due to heat and humidity. It reduces risks of human error and worker disability from heat exhaustion while supporting the work quality and productivity.

## Emergency Back-up

*Roll it in. Set it up. Turn it on.*

### **Back-up cooling when you need it the most.**

MovinCool units provide true air-conditioning on casters that can be quickly deployed in a variety of emergency situations such as, heat waves, flooding, and natural disasters. Reduce heat stress on equipment and people to keep critical operations up and running and can run from a generator during a power outage.

### Outdoors and Events

*No need to cancel your plans. Simply go with MovinCool.*

#### Outdoor Cooling

MovinCool units can simply be rolled out, set up, and turned on providing cold air to protect staff and participants from heat stress. The Climate Pro X Series models offer 13,200 to 24,000 Btu/h of spot cooling and the Classic Series models offer 39,000 to 60,000 Btu/h and are ETL listed for outdoor use and more extreme conditions like strong sunlight and high humidity.

### Moisture Removal

*MovinCool dehumidifiers are ideal for drying out wet and damp spaces.*

**Count on MovinCool drying technology for swift and sure moisture removal.**

MovinCool portable spot air conditioners are ideal for drying out wet and damp spaces in emergency situations such as storms, floods, spills and leaks. It extracts moisture quickly, saving time and reducing restoration costs. It eliminates odors and prevents growth or spread of mold and mildew.

## Automotive Service Bay

*When the garage gets hot, MovinCool says, "No Sweat."*

### Work comfortably

MovinCool portable spot air conditioners help those in automotive service bays or on the race track avoid heat stress and increase productivity. It cools employees in hot and humid service bays while reducing fatigue, injury and heat stress. It also cools hot engines and other equipment — cutting downtime.

## Construction Sites

*Drying and Cooling Solution at the Jobsite.*

### Quick relief

MovinCool portable spot air conditioners speed up drying and curing of construction materials such as drywall, compound, grout, caulking, paints, and adhesives. It keeps workers cool in heat-intensive work processes, such as welding or while in trailers, tents, temporary offices or when central HVAC is down or off.

## Safety in the Workplace

*Prevent heat and stress while increasing productivity.*

### Keeping workers safe on jobsites.

When jobsite heat becomes unbearable, MovinCool spot air conditioners provides quick relief to workers avoiding heat stress, potential OSHA citations, and increasing productivity. It cools down heat-sensitive equipment preventing production downtime and is ideal for supplemental, emergency or permanent cooling.

## Spot Cooling Solutions with MovinCool Accessories

The all-in-one design of MovinCool portable air conditioners and heat pumps make them the ideal cooling and heating solution for your climate-control needs. Using the optional accessories not only gives you the ability to customize cooling and heating applications, but also makes the unit work more efficiently.

We've grouped the accessories into the most common applications such as cooling multiple areas with one unit, automatically removing condensation and removing exhaust air. The possibilities are endless. And with genuine MovinCool accessories, you are assured of quality parts engineered and designed specifically to gain optimum performance from your MovinCool products.

### How to Select MovinCool Accessories

The most common accessory installations are included in this catalog.

- 1.** Find your MovinCool model series:  
Climate Pro, Classic or CM.
- 2.** Find the application(s) suited to your specific need.
- 3.** Order the part number(s) for your specific  
MovinCool model.

## Climate Pro K Series

### The cooler choice for your office or computer room

The all-new Climate Pro K series brings “roll-it-in” and “plug-it-in” convenience with the innovative features that distinguish the entire Climate Pro line.

#### Key Features

- Made especially for commercial spaces where comfort is essential to productivity.
- Cools to mid-60s°F — for effective heat control around electronics, servers, and computers.
- Air-cooled models from 12,000 to 60,000 Btu/h — let you size efficiently for your space.
- Digital controls and auto operation — allow 24/7 programmable back-up of central systems.
- Effective moisture removal — hastens drying for humid and water-damaged areas.
- Connectivity ready with remote monitoring, geolocation and performance notifications.\*

\*Subscription required, coming in 2022.

## Climate Pro K12 / K18 / K24

#	ACCESSORY	DESCRIPTION
1	Supply Air Flange Kit, 5-in dia.	Black metal flange with wire clamp and mounting screws. Use with self-supported ducts.
1B	Quick Connect Supply Air Flange Kit, 5-in dia.	Black plastic flange with mounting screws. Use with Quick Connect Nozzle Kit.
2	Quick Connect Supply Air Nozzle Kit, 5-in dia.	Gray plastic nozzle that extends up to 2 feet in length. Includes trim ring. Each nozzle sold separately.
4	Self-Supported Duct, 5-in dia.	Gray plastic duct with adjustable diameter that extends from 6.5 to 10 feet in length.
5	Trim Ring, 5-in dia.	Black plastic ring mounts as end caps for extension duct.
6	Supply Air Nozzle Adapter Kit, 5-in dia.	Adapter converts airflow from louvers to nozzles or air ducts. Two nozzles or extension ducts.
8	Self-Supported Duct, 12-in dia.	Gray plastic duct that extends 6.5 to 10 feet in length.
8A	Flexible Air Duct, 12-in dia. (not shown)	Wire-reinforced, accordion-style duct in 10-ft lengths. Includes clamp.
9	Ceiling Tile, 12-in dia hole, plastic	24-in x 24-in white plastic tile with 12-in hole for exhaust air self-supported duct.
9A	Ceiling Tile, 12-in hole, metal (not shown)	24-in x 24-in sheet metal tile with 12-in hole and built-in flange for exhaust air flexible duct.
10	Outdoor Heat Exchanger Plenum	Plenum for return air to outdoor heat exchanger.
11	Condensate Pump Kit	Pump kit includes 3/8-in diameter x 20-ft length hose. Includes installation hardware. Maximum lift: 20 feet at 115V and 17 feet at 230V.
12	Indoor Heat Exchanger Plenum	Plenum for return air to indoor heat exchanger.
15	Storage Cover	Durable black nylon oxford unit storage cover.

## Accessory Applications

### Auto Condensate Removal

Why bother with emptying the drain tank when you can install a condensate pump to remove the water automatically? This pump has a 17-ft lift capacity to reach virtually any remote drain.

#	ACCESSORY	CLIMATE PRO K12 / K18	CLIMATE PRO K24
11	Condensate Pump Kit	484789-0210	484789-0220

### Outdoor Heat Exchanger Exhaust Air Removal

MovinCool makes removing exhaust easy. Replace the existing ceiling tile with the MovinCool ceiling tile accessory. Place the self-supported or flexible duct on top of the unit and insert it into the ceiling tile.

#	ACCESSORY	CLIMATE PRO K12 / K18 / 24
8	Self-Supported Duct, 12-in dia. <sup>(a)</sup>	LA481744-0410
8A	Flexible Air Duct (not shown) <sup>(b)</sup>	LAY45771-0060
9	Ceiling Tile, plastic <sup>(c)</sup>	LA146373-8280
9A	Ceiling Tile, metal (not shown) <sup>(d)</sup>	484490-1030

### Outdoor Heat Exchanger Air Intake

When balanced airflow is required, attach the outdoor heat exchanger plenum with a duct from the side of the unit to an outside air source. The air to the outdoor heat exchanger is pulled from outside the room to eliminate problems associated with negative air pressure.

#	ACCESSORY	CLIMATE PRO K12 / K18	CLIMATE PRO K24
8	Self-Supported Duct, 12-in dia. <sup>(e)</sup>	LA481744-0410	LA481744-0410

9A	Ceiling Tile, metal (not shown) <sup>(h)</sup>	484490-1030	484490-1030
10	Outdoor Heat Exchanger Plenum <sup>(i)</sup>	484350-1160	484350-1170

### Spot or Remote Cooling

To use the Climate Pro® K Series models to spot cool specific areas, use the nozzle adapter in place of the standard louvers. Attach self-supported or flexible air ducts to the adapter to cool remote hot spots. Trim rings give a finished look and keep the ducts from unraveling. To improve efficiency, use the outdoor heat exchanger plenum to recirculate cool air.

<sup>(c)</sup> 8	<sup>(g)</sup> 8 and 10	<sup>(j)</sup> 4, 5 and 6	<sup>(n)</sup> 4	<sup>(p)</sup> 8 or 8A
<sup>(d)</sup> 8A	<sup>(h)</sup> 8A and 10	<sup>(k)</sup> 2 and 6		

NOTE: All part numbers come with one part except where noted. All kits include additional pieces such as clamps and screws. See parts description box for more information.

## Climate Pro K36 / K60 / K63

#	ACCESSORY	DESCRIPTION
1	Supply Air Flange Kit, 6-in dia.	Black metal flange with wire clamp and mounting screws. Use with Self-Supported Duct.
1A	Supply Air Flange Kit, 8-in dia	Black metal flange with wire clamp and mounting screws. Use with Self-Supported or Flexible air ducts.
1B	Quick Connect Supply Air Flange Kit, 6-in dia.	Black metal flange with mounting screws. Use with Quick Connect Nozzle Kit.
2	Quick Connect Supply Air Nozzle Kit, 6-in dia.	Gray plastic nozzle that extends up to 2 feet in length. Includes trim ring. Each nozzle sold separately.
4	Self-Supported Duct, 6-in dia.	Gray plastic duct with adjustable diameter that extends from 6.5 to 10 feet in length.
4A	Self-Supported Duct, 8-in dia.	Gray plastic duct with adjustable diameter that extends from 6.5 to 10 feet in length.
4B	Flexible Air Duct, 8-in dia.	Wire-reinforced, accordion-style duct in 25-ft lengths. Includes clamp.
5	Trim Ring, 6-in dia.	Black plastic ring mounts as end caps for extension duct.
6	Supply Air Nozzle Adapter Kit, 6-in dia.	Adapter converts airflow from louvers to nozzles or air ducts. Two, three or four nozzles or air ducts configurations.
6A	Duct Adapter Kit, 8-in dia.	Two-piece metal frame converts airflow from louvers to 8-in self-supported ducts or flexible air ducts. Ducts and flange sold separately.
8A	Flexible Air Duct, 16-in dia. (not shown)	Wire-reinforced, accordion-style duct in 25-ft lengths. Includes clamp.
9A	Celling Tile, 16-in hole, metal (not shown)	24-in x 24-in sheet metal tile with 16-in hole and built-in flange for exhaust air flexible duct kit.
10	Outdoor Heat Exchanger Plenum	Plenum for return air to outdoor heat exchanger.
11	Condensate Pump Kit, 230V	Pump kit includes 3/8-in diameter x 20-ft length hose. Includes installation hardware. Maximum lift: 17 feet
12	Indoor Heat Exchanger Plenum	Plenum for return air to indoor heat exchanger.
14	Condensate Tank	Drain tank storage for condensation. Requires condensate float, sold separately. (For Climate Pro K60/K63 only)
14A	Condensate Float (not shown)	Controls water level in condensate tanks. (For Climate Pro K60/K63 only)
15	Storage Cover	Durable black nylon oxford unit storage cover.

## Accessory Applications

### Auto Condensate Removal

Why bother with emptying the drain tank when you can install a condensate pump to remove the water automatically? This pump has a 17-ft lift capacity to reach virtually any remote drain. (Use of condensate tanks also requires the float).

NOTE: All part numbers come with one part except where noted. All kits include additional pieces such as clamps and screws. See parts description box for more information.

## Climate Pro X Series

### The cooler choice for your warehouse or factory.

The all-new Climate Pro X Series brings advanced spot-cooling to commercial and industrial applications — perfect for cooling people and production processes.

#### Key Features

- Air-cooled units from 13,200 to 24,000 Btu/h — to handle temperatures as high as 113°F
- Three-speed fan and adjustable nozzles for versatile cooling comfort
- New! 115 V/20 amp model (16,800 Btu/h)
- Digital controls and auto operation — for 24/7 programmable back-up of central systems.
- Effective moisture removal — hastens drying for humid and water-damaged areas.
- Connectivity ready with remote monitoring, geolocation and performance notifications.\*

\*Subscription required, coming in 2022.

#### Ideal for . . .

Warehouses  
Assembly Lines  
Manufacturing Plants  
Process Cooling  
Construction Sites  
Moisture Removal  
Outdoors and Events

## Climate Pro X14 / X20 / X26

#	ACCESSORY	DESCRIPTION
1	Supply Air Flange Kit, 5-in dia.	Black metal flange with wire clamp and mounting screws. Use with supply air ducts.
3	Dual Duct, 5-in dia.	Plastic flange with two 4-in nozzles that extend to 2 feet in length
4	Self-Supported Duct, 5-in dia.	Gray plastic duct with adjustable diameter that extends from 6.5 to 10 feet in length
5	Trim Ring, 5-in dia.	Black plastic ring mounts as end caps for extension duct
6	Supply Air Nozzle Adapter Kit, 5-in dia.	Adapter converts airflow from unit to self-supported ducts
8	Self-Supported Duct, 12-in dia.	Gray plastic duct that extends 6.5 to 10 feet in length
8A	Flexible Air Duct, 12-in dia. (not shown)	Wire-reinforced, accordion-style duct in 10-ft length for outdoor heat exchanger (exhaust air or return air). Includes clamp
9	Ceiling Tile, 12-in hole, plastic	24-in x 24-in plastic white tile with 12-in hole for exhaust air self-supported duct
9A	Ceiling Tile Kit, 12-in hole, metal (not shown)	24-in x 24-in sheet metal tile with 12-in hole and built-in flange for exhaust air exhaust air or return air flexible duct
10	Outdoor Heat Exchanger Plenum	Plenum for return air to outdoor heat exchanger
11	Condensate Pump Kit	Pump kit includes 3/8-in diameter x 20-ft length hose. Includes installation hardware. Maximum lift: 20 feet at 115V and 17 feet at 230V
12	Indoor Heat Exchanger Plenum	Plenum for return air to indoor heat exchanger.
15	Storage Cover	Durable black nylon oxford unit storage cover

## Accessory Applications

### Auto Condensate Removal

Why bother with emptying the drain tank when you can install a condensate pump to remove the water automatically? This pump has a 17-ft lift capacity to reach virtually any remote drain. With the condensate pump installed, drainage is automatic and access to the compartment is no longer necessary.

#	ACCESSORY	CLIMATE PRO X14 / X20	CLIMATE PRO X26
10	Condensate Pump Kit	484789-0210	484789-0220

### Outdoor Heat Exchanger Exhaust Air Removal

To exhaust air above the work area, attach duct to the exhaust air flange on top of the unit. When using MovinCool inside an office, simply replace the ceiling tile with the MovinCool ceiling tile and insert the duct to exhaust the air. No special tools or equipment are required for the installation.

#	ACCESSORY	CLIMATE PRO X14 / X20	CLIMATE PRO X26
8	Self Supported Duct, 12-in dia. <sup>(a)</sup>	LA481744-0410	LA481744-0410
8A	Flexible Air Duct (not shown) <sup>(b)</sup>	LAY45771-0060	LAY45771-0060
9	Ceiling Tile, plastic <sup>(c)</sup>	LA146373-8280	LA146373-8280
9A	Ceiling Tile, metal (not shown) <sup>(d)</sup>	484490-1030	484490-1030

### Outdoor Heat Exchanger Air Intake

When balanced airflow is required, attach the outdoor heat exchanger plenum with a duct from the side of the unit to an outside air source. The air to the outdoor heat exchanger is pulled from outside the room to eliminate problems associated with negative air pressure.

#	ACCESSORY	CLIMATE PRO X14 / X20	CLIMATE PRO X26
8	Self Supported Duct, 12-in dia. <sup>(e)</sup>	LA481744-0410	LA481744-0410

10	Outdoor Heat Exchanger Plenum <sup>(i)</sup>	484350-1160	484350-1180

### Remote Cooling

The amount of air supplied to remote areas can be increased by attaching 10-ft extension ducts. Use the flange and clamp to secure the extension ducts to the unit. Each duct can be extended 30 to 60 feet from the unit, depending on the model. Add trim rings to the end of the extension ducts to give a finished look and keep the ducts from unraveling. The dual duct accessory can be used to divide each 5-in nozzle opening into two 4-in outlets to multiply your cooling options.

## Climate Pro D Series

### Your all-in-one “dual” answer for cooling and heating.

Climate Pro D series heat pumps let you heat or cool for year-round comfort.

#### Key Features

- Economy and convenience — one affordable unit that provides both heating and cooling.
- Compact footprint for space-limited applications.
- Made with safety in mind — no flammable gas, no hot-to-the-touch surfaces. and no sharp corners.
- Effective moisture removal — hastens drying for humid and water-damaged areas.
- Excellent back-up protection for sensitive electronics.
- Connectivity ready with remote monitoring, geolocation and performance notifications.\*

\*Subscription required, coming in 2022.

12	Indoor Heat Exchanger Plenum	Plenum for return air to indoor heat exchanger.
15	Storage Cover	Durable black nylon oxford unit storage cover.

# Accessory Applications

## Auto Condensate Removal

Why bother with emptying the drain tank when you can install a condensate pump to remove the water automatically? This pump has a 17-ft lift capacity to reach virtually any remote drain.

#	ACCESSORY	CLIMATE PRO D12 / D18
11	Condensate Pump Kit	484789-0210

## Exhaust Air Removal & Supply Air Intake

MovinCool makes removing exhaust easy. Simply replace the existing ceiling tile with the MovinCool ceiling tile accessory. Place the self-supported or flexible duct on top of the unit and insert it into the ceiling tile. That's all it takes. When balanced airflow is required, attach the outdoor heat exchanger plenum with a duct from the side of the unit to an outside air source. The air to the condenser is pulled from outside the room to eliminate problems associated with negative air pressure.

## Classic 40

**The enduring standard in portable cooling for commercial and industrial users.**

Durable, reliable, and time-tested since 1982. The Classic 40 is a great choice for spot cooling across a wide range of applications.

### Key Features

- 40,000 Btu/h — for efficient sizing to your application.
- Flexible duct extends up to 80 ft. — versatile, targeted cooling in hard-to-reach spaces.
- Rugged design and construction — for superior performance in harsh environments.
- Digital temperature controls — for clear and simple operation.
- Safety listed for outdoor use
- Handles temperatures up to 115°F

### Ideal for . . .

Warehouses  
Assembly Lines  
Manufacturing Plants  
Process Cooling  
Moisture Removal  
Outdoors and Events

## Classic 40

#	ACCESSORY	DESCRIPTION
1	Supply Air Flange Kit, 12-in dia.	Gray metal flange with wire clamp and mounting screws
2	Chamber Extender	Gray metal cylinder raises exhaust air chamber 16 inches above unit
2A	Chamber Extender Flange Kit (not shown)	Gray metal flange connects chamber extender to the unit
3	Two-way Chamber	Insulated gray plastic chamber diverts airflow in two directions. Use 6-in extension ducts
3A	Three-way Chamber (not shown)	Insulated gray plastic chamber diverts airflow in three directions. Use 6-in extension ducts.
4	Self-Supported Duct, 6-in dia.	Adjustable diameter, gray plastic duct that extends from 6.5 to 10 feet in length
5	Trim Ring, 6-in dia.	Black plastic ring mounts as end caps for extension duct
6	Self-Supported Duct, 12-in dia.	Gray plastic duct that extends 6.5 to 10 feet in length
6A	Flexible Air Duct, 12-in dia. (not shown)	Wire-reinforced, accordion-style duct in 10-ft length. Includes clamp
7	Wall Thermostat	Weekday and weekend programmable digital millivolt thermostat.
8	Remote Control Kit	Kit includes remote control box and installation hardware. Uses six 18AWG plus one ground wire (wire not included)
9	Caster Kit	Four casters and wrench
10	Wagon Kit	Blue metal, tubular frame with four casters, drain spout assembly and two 5-gal. condensate tanks (Classic 40 only)
11	Stand Kit	Blue metal, tubular frame raises unit off the ground (Classic 40 only)

# Accessory Applications

## Multiple or Remote Area Cooling

Cooling several hot spots is not a problem with the two- or three-way chamber. Extension ducts in 10-ft sections can be used to bring cooling to remote or different locations. Attach trim rings at the end of the extension ducts to give a finished look and keep the ducts from unraveling.

#	ACCESSORY	CLASSIC 40
1	Supply Air Flange Kit	481170-0191
2	Chamber Extender	481849-1431 <sup>(a)</sup>
2A	Chamber Extender Flange Kit (not shown) *	481170-0091
3	Two-way Chamber	481769-0041
3A	Three-way Chamber (not shown)	481769-0051
4	Self-Supported Duct, 6-in dia. <sup>(d)</sup>	LA481744-0400
5	Trim Ring <sup>(e)</sup>	481851-0210

<sup>(f)</sup> 1

NOTE: All part numbers come with one part except where noted. All kits include additional pieces such as clamps and screws. See parts description box for more information.

## CM Series Ceiling-mounted Spot Cooling

### Space-saving design for overhead installations.

When floor space is limited, the innovative, CM 12 is the solution. Shortest top-to-bottom profile in the industry — can be installed in virtually any drop ceiling.

#### Key Features

- Environmentally friendly — RoHS compliant.
- Built-in condensate pump — 4 ft. head for sufficient lift to drain line.
- Programmable for automatic operation.
- Great for areas where floor space is limited.
- Self contained system, no refrigerant lines to run.

#### Ideal for . . .

Offices  
Conference rooms  
Hotels  
Overhead Spot Cooling  
Supplemental Cooling  
Off-season Spot Cooling  
Anywhere space is limited

## CM Series Specifications

		CM12
Electronic Features	Operation	Millivolt Thermostat (Not Included)
	Control	Electronic
Electrical Characteristics	Voltage Requirement (60 Hz)	1 Phase, 115 V
	Total Power Consumption	1.23 kW <sup>(1,2)</sup>
	Current Consumption	11.9 amps <sup>(1,2)</sup>
	Recommended Fuse Size	15 amps
	NEMA Plug Configuration	N/A
	Min. – Max. Voltage	105 - 125V
Cooling Capacity and Power Consumption Evaporator: 80°F @ 50% RH Condenser: 95°F @ 50% RH	Total Cooling Capacity	10,500 Btu/h <sup>(1)</sup>
	Sensible Cooling Capacity	7,200 Btu/h <sup>(1)</sup>
	Power Consumption	1.23 kW <sup>(1)</sup>
	Current Consumption	11.2 amps <sup>(1)</sup>
Cooling Capacity and Power Consumption Evaporator: 72°F @ 50%RH Condenser: 95°F @ 50%RH	Total Cooling Capacity	9,300 Btu/h <sup>(1)</sup>
	Sensible Cooling Capacity	7,000 Btu/h <sup>(1)</sup>
	Power Consumption	1.22 kW <sup>(1)</sup>
	Current Consumption	11 amps <sup>(1)</sup>
Fans	Motor Output	0.04/0.013 kW Evaporator 0.1/0.025 kW Condenser
Evaporator	Fan Type	Centrifugal
	Max. Air Flow - High/Low	324/228 CFM <sup>(1)</sup>
	Max. External Static Pressure	0.16 IWG
Condenser	Fan Type	Centrifugal
	Max. Air Flow - High/Low	700/370 CFM
	Max. External Static Pressure	0.12 IWG
Compressor	Type	Hermetic Rotary
	Output	0.89 kW
Refrigerant	Type	R-410A
Dimensions	W x D x H (with Flange)	35 x 23 x 16 in
	W x D x H (without Flange)	32 x 20 x 15.2 in
Net Weight/Shipping Weight		128/141 lb
Power Cord	Gauge	—
	Length	—
Condensate Pump Capacity	Pump Rate	5 gal/h
	Head	4 ft
Operating Conditions	Min. – Max. @ 50% RH	65° – 95°F Evaporator <sup>(1)</sup> 65° – 113°F Condenser <sup>(1)</sup>
Max. Duct Length	Per Cold Duct Hose	20 ft <sup>(2)</sup>
	Hot Duct Hose	10 ft <sup>(2)</sup>
Max. Sound Level	With Condenser Duct	52 dB(A)
	Without Condenser Duct	—

<sup>(1)</sup> Measured with two 6-ft ducts with one 90° bend each, supply grill and return grill with filter (0.16 IWG external static pressure). Ducts not included.

<sup>(2)</sup> Confirm pressure drop of duct, grills and filter with manufacturer's specifications. Ducts not included.

All specifications subject to change without notice. See our website for the latest information. See page 31 for technical features and warranty information.

## Accessory Descriptions & Applications

Unit is only representative.

### CM 12

#	ACCESSORY	DESCRIPTION
1	Exhaust Air Flange Kit, 10-in or 12-in dia.	Gray metal flange with wire clamp and mounting screws.
2	Outdoor Heat Exchanger Plenum, 10-in or 14-in dia.	Gray metal plenum with return air flange. Includes mounting screws.
2	Outdoor Heat Exchanger Filter Kit (not shown)	Optional filter kit for condenser air intake for use in heavily dusty environments.
4	Wall Thermostat	Weekday and weekend programmable digital millivolt thermostat.

### Outdoor Heat Exchanger Air Intake

The plenum can be used to prevent negative air pressure in the ceiling space when using the exhaust air-flange and duct to remove exhaust from the ceiling space. Simply attach a 10-in (CM12) or 14-in (CM25) diameter duct to the air plenum to bring in air from outside of the ceiling space (duct not included).

#	ACCESSORY	CM 12
2	Outdoor Heat Exchanger Plenum	481769-0221

### Outdoor Heat Exchanger Exhaust Air Removal

If removing the exhaust is needed, MovinCool makes it easy. The flange can be used to attach a 10-in (CM12) diameter or 12-in (CM25) diameter duct for more air exhaust options (duct not included).

#	ACCESSORY	CM 12
1	Exhaust Air Flange	481170-0440

### Wall Thermostat

Weekday and weekend programmable digital millivolt thermostat.

#	ACCESSORY	CM 12
4	Wall Thermostat	LA484500-3430

\* Wall-mounted controller with LCD display

## MovinCool Quick Reference

MovinCool systems come in different electrical configurations — so you have spot-cooling choices that work for your facility.

### By Voltage

1 Phase, 115V	1 Phase, 208/230V	3 Phase, 220V	3 Phase, 460V
Climate Pro D12	Climate Pro K24	Classic 40	Climate Pro K63
Climate Pro D18	Climate Pro K36		
Climate Pro K12	Climate Pro K60		
Climate Pro K18	Climate Pro X26		
Climate Pro X14			
Climate Pro X20			
CM12			

### By Cooling Capacity

Btu/h Cooling	Model
10,500	CM 12
11,450	Climate Pro D12
12,000	Climate Pro K12
13,200	Climate Pro X14
15,500	Climate Pro D18
16,800	Climate Pro X20
16,800	Climate Pro K18
24,000	Climate Pro X26
24,000	Climate Pro K24
39,000	Classic 40
60,000	Climate Pro K60
60,000	Climate Pro K63

### By Heating Capacity

Btu/h Cooling	Model
9,900	Climate Pro D12
13,100	Climate Pro D18

### Technical Features

All models feature compressor overload relay and fan motor protection. All models also feature compressor short-cycle protection, return air thermostat, automatic restart and accommodate a condensate pump kit.

### Standard and Extended Warranty

All models come with a standard warranty covering the entire unit and compressor for 12 months.

#### Free Extended Warranty

Visit [MovinCool.com/warranty](http://MovinCool.com/warranty) for details on MovinCool's industry-best free Extended Warranty Program which totals three (3) years for both parts and labor on portable units.
